

Vascular ventures

Citation for published version (APA):

Haeren, RHL. (2018). *Vascular ventures: Analysis of vascular structures and function in epilepsy*. [Doctoral Thesis, Maastricht University]. Datawyse / Universitaire Pers Maastricht. <https://doi.org/10.26481/dis.20181026rh>

Document status and date:

Published: 01/01/2018

DOI:

[10.26481/dis.20181026rh](https://doi.org/10.26481/dis.20181026rh)

Document Version:

Publisher's PDF, also known as Version of record

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

Vascular ventures Analysis of vascular structures and function in epilepsy

Roel Haeren

1. De omstandigheden waarin een studie naar de dikte van de endotheliale glycocalyx plaatsvindt bepalen welke techniek het meest geschikt is om deze dikte te bepalen. (dit proefschrift)
2. Sidestream dark field imaging is een geschikte techniek om eigenschappen van de humane cerebrale microcirculatie, zoals de glycocalyx, in vivo te beoordelen. (dit proefschrift)
3. Vasoconstrictie van cerebrale arteriën vereist een interactie tussen neurogene en adrenerge stimulatie die afhankelijk is van Endotheline-1. (dit proefschrift)
4. De vaatwand van cerebrale arteriën van epilepsiepatiënten bevat lipofuscine partikels." (dit proefschrift)
5. De waarde van medische zorg is meer dan alleen zijn kosten.
6. You ain't never the same when the air hits your brain. (Franck T. Vertosick Jr.)
7. A physician is obligated to consider more than a diseased organ, more than even the whole man – he must view the man in his world. (Harvey Cushing)
8. Iedere waarneming is onderhevig aan haar eigen subjectiviteit.
9. If we knew what we were doing, it wouldn't be called research. (toegeschreven aan Albert Einstein)
10. The world is second best, at best. (Avinash Dixit)
